

Let's make your trademark great (again)

We at Kurz Pfitzer Wolf & Partner make an effort to make your trademark great (again). We want to determine the future of your trademark for years to come. We will face challenges. We will confront hardships. But we will get the job done.

Many companies or startups don't think about trademarks or intellectual property. Or they don't take good care of them. Trademarks are lots of times not well managed or taken care of. Sometimes they are forgotten and not renewed. Also many are infringed and counterfeited badly. Sad!

That all changes - starting right here, and right now, because this is your chance to do what's right. You came to our website like millions of others to find what matters. An experienced trademark lawyer to serve his clients.

Clients want great advice for their legal issues, safety for their intellectual property and reasonable fees for excellent work. But for many trademark owners or companies who still seek to protect a trademark, a different reality exists. Many trademarks are taken, the trademark office complains about their trademark, trademarks are badly managed, competitors ignore intellectual property rights and counterfeiters bigly make money of your intellectual property.

This trademark carnage has to stop right now.

Let's make your trademark great (again)
