

Software consulting

Are you planning to purchase or license software, to commission individual programming, or to use or package open source software? Are you having difficulties implementing your software project and/or with the software company? Are claims being made against you by a software company for alleged pirated copying or license transgressions or have your rights to software been violated? Do you produce software and require support in the distribution?

What we offer

We can advise you in all questions regarding software, particularly acquiring, usage, and protection of software products. Thus, we will support you in the licensing of standardized software or the implementation of individual software programs, and we will support you in the event of licensing problems and help you in protecting your software and tracking violations of your rights. The design of contract wording such as licensing agreements and software transfer and creation agreements are also part of our services as well as legal disputes in the event of a violation of the copyright or other rights to software. We will also advise and support you during the distribution and sale of software products. Are specialists for IT law can rely on corresponding technical knowledge and many years of experience in IT industry, which will ensure qualitatively high-value results.
