

Trademark application

Do you have a name, logo or other identification for the goods and services you offer? If so, you may want to protect it from imitators and copycats and make sure that only you are entitled to use this mark or have it used for your goods and services in the countries and markets relevant to you.

You can achieve this with a trademark application, because a trademark grants its owner an exclusive right to use it in the respective country. We will be happy to advise and assist you with the application and registration of your trademarks.

Trade mark application offer

We advise you on the costs, opportunities and risks of a trademark application, what to consider in the context of an application, how and where your trademark should best be applied for and carry out a professional trademark application for you. We register trademarks in Germany, Switzerland, EU and other countries of the world for you. You can rely on our many years of experience and our good international network to provide you with the best possible support for your trademark application. It does not matter whether you want to protect a word mark, figurative mark, word/figurative mark, color mark, warranty mark, collective mark or any other form of trademark.
